

KILGOUR ADVISORY GROUP

KAG Presents MAV Seminar to New York Hedge Fund Community

Good Afternoon,

Earlier this week, Colin Kilgour and Dan Williams of [Kilgour Advisory Group](#) presented a seminar on MAV2 and MAV3 notes to current and prospective MAV investors in New York. The event was hosted by [The Seaport Group](#) and the audience consisted principally of representatives from hedge funds that have either been investing in MAV notes or that are currently considering such an investment.

While we have seen increasing liquidity and pricing in the MAV notes since Labour Day, we are optimistic that events such as this will help to further increase investor appetite for the notes which should in turn enhance the liquidity and market prices that are available to all investors.

If you would like more information or colour commentary on this seminar, or would like a copy of the seminar materials, please contact us and we will be happy to help you out.

Cheers,

Colin Kilgour
